Subject: Request for summer internship

Dear Sir/ Madam,

It gives us immense pleasure to introduce IIT Jodhpur, an institute of National importance under the Ministry of Education, Govt. of India. Since its inception in 2008, IIT Jodhpur has achieved several milestones and has always strived to push its limits in all spheres. The institute has a large pool of talented students pursuing their interests through the wide range of academic programs offered here. It's noteworthy that IIT Jodhpur has secured 30th rank in NIRF 2022.

Undergraduate students are also allowed to opt for specializations in various emerging domains such as Artificial Intelligence, CPS, IoT and non-technical minors such as Management and Entrepreneurship, allowing comprehensive development of student's mind. This year, we have an increased pool of talented students who are keen on becoming a part of your esteemed organization and contributing to furthering your objective. We look forward to building a strong long-term relationship with your organization.

As a part of Curriculum introduced by IIT Jodhpur and to give practical exposure to the students in their branch of Engineering, students are required to undergo upto 2 months of summer internship after completion of 4th/6th Semester in a reputed Organization.

During the period of on-the job training in various divisions of the organization, the students are also assigned a suitable project, which provides them the opportunity to apply theoretical concepts in practical situations. This can help your esteemed organization in previewing the student as a prospective employee.

We seek your cooperation and request you to allow **Mr. Sushant Ravva(B21CS084)** of B.Tech in CSE of 4th Semester to undergo summer internship starting during June6-July28, 2023 and issue the confirmation of training to undersigned.

Thanks and Warm Regards,

Puneet Garg
